Office Phone: (949) 542-8625

Alloy Products Distribution, Inc. (APD) is an American Company based in California. We have been working with our customers to manufacture products in Taiwan and China for the past twenty years. During this time our customers have realized increased profits while reducing costs.

Alloy Products Distribution, Inc. (APD) provides standard hydraulic fitting, and OEMs. OEM parts are widely used on various industries, such as Passenger Cars, Diesel Engine, Marine, Heavy Duty Truck, Construction Equipment & Vehicles, Bus and Lift Trucks etc.

**Caterpillar**, **Paccar**, **Cummins** and **Volvo** use our products!

**CATERPILLAR**<sup>®</sup>

**PACCAR**

- An area of nearly 5,000 square meters
- 60 CNC machines and 5 milling machines etc
- ISO9001 regulations throughout the entire production process
- 100 people including 8 engineers and 7 QC people
- Annual export turnover is about 6 millions US Dollars

## Equipment

CNC

Cold Forging Machine

Grinding Machine

Metallographic Tester

Salt Spray Machine

Projector

# Scientific Production Management

# Hydraulic Adapters

## 1. Tube Fittings & Adapters

APD steel and stainless steel 37° flare tube fittings meet all design and performance requirements for 37° flare tube fittings in Standard J514 published by the SAE.

## 2. O-Ring Face Seal Fittings

APD steel and stainless steel o-ring face seal fittings meet all design and performance requirements for o-ring face seal fittings in Standard J1453 published by the SAE.

## 3. DIN / ISO Fittings

APD manufactures its DIN fittings in accordance to the DIN 2353 and ISO 8434-1 in hot forged steel and upon request stainless steel.

## 4. BSP/BSPP/BSPT Fittings

APD manufactures its BSP/BSPT/BSPP fittings in accordance to the ISO 8434-6, ISO1179-1 and ISO 7 in hot forged steel and upon request stainless steel.

## Hose Fittings

### 1. One Piece Hose Fittings

Contain metric thread 24° cone light/heavy series, BSP thread 60° cone fitting, JIC 74° cone fitting, ORFS tube fitting, SAE flange light/heavy series.

### 2. Swaged Hose Fittings

Contain metric thread 24° cone light/heavy series, BSP thread 60° cone fitting, JIC 74° cone fitting, ORFS tube fitting, SAE flange light/heavy series, Metric female multiseal, metric female flat seat, metric standpipe straight DIN 2353, JIS Gas female 60° cone seat, NPT thread fitting, MT staplelock male, banjo, double connector.

### 3. Interlock Fittings

Contain metric thread 24° cone heavy series, BSP thread 60° cone fitting, JIC 74° cone fitting, ORFS tube fitting, SAE flange light/heavy series and flange 9000PSI series.

### 4. Ferrules

Contain DIN, SAE, GB type.
